for HVAC

Solaris goes beyond filtration to create cleaner, fresher and healthier air

Air contamination comes in many forms, and from many sources. Solaris Air Purifiers combine proven air contamination removal technologies to do the job, and comes in one, convenient and efficient whole house air purification system.

- **Kills bacteria and viruses** circulating in the air and on surfaces—including countertops
- **Breaks down household odors** from kitchens to laundry rooms—even bathroom and swimming pool odors
- **Microscopic pollution is gathered into large and filterable groups!** Offers unprecedented removal of minute airborne irritants
- **Freshens the air** in the same way a thunderstorm clears the air of contamination
- **Whole house effective!** A Solaris® air purifier is professionally installed in HVAC air ducts so fresher healthier air is distributed to all air conditioned spaces.

Household odors

Bring cleaner air to your life™

Solaris air purifiers operate silently and out-of-the-way inside your HVAC system bringing fresher, healthier air to every room

Solaris treats the air passing through your air conditioner by breaking down odors and germs.

Solaris ionization charges microscopic pollution enabling capture in filtration

Lifetime Warranty

With 1-year UV Lamp Warranty (see owner's manual for complete details)

Ozone Free

Conforms to UL 2998 (3rd Edition, July 10, 2020) clause 6.2, emission of ozone not exceeding a concentration of 0.005 ppm.

Solaris multi-technology PCO air purifiers bring commercial grade purification performance to your home!

Solaris® goes beyond filtration to eradicate germs, allergens, odors, and VOC/chemical pollution!

Solaris Air Purifier Independent Testing

Pathogen Reduction

Recommended option: Solaris UV lights for HVAC surface and airstream disinfection

Connects to Solaris purifier accessory port, installs near HVAC cooling coil, keeping coil clean and clear of biogrowth while adding to overall HVAC airstream disinfection intensity.

Prevents HVAC-sourced allergens and bacteria while increasing HVAC energy efficiency

Eliminates HVAC surfaces bio-growth and increases cooling efficiency!
