Ultravation®

SOLARIS®

Multi-Technology Air Purification

Active PCO TiO₂ + Silver/Zinc Ion Oxidation / 4XNP Ion/Plasma Generator / Germicidal UV Light
for HVAC

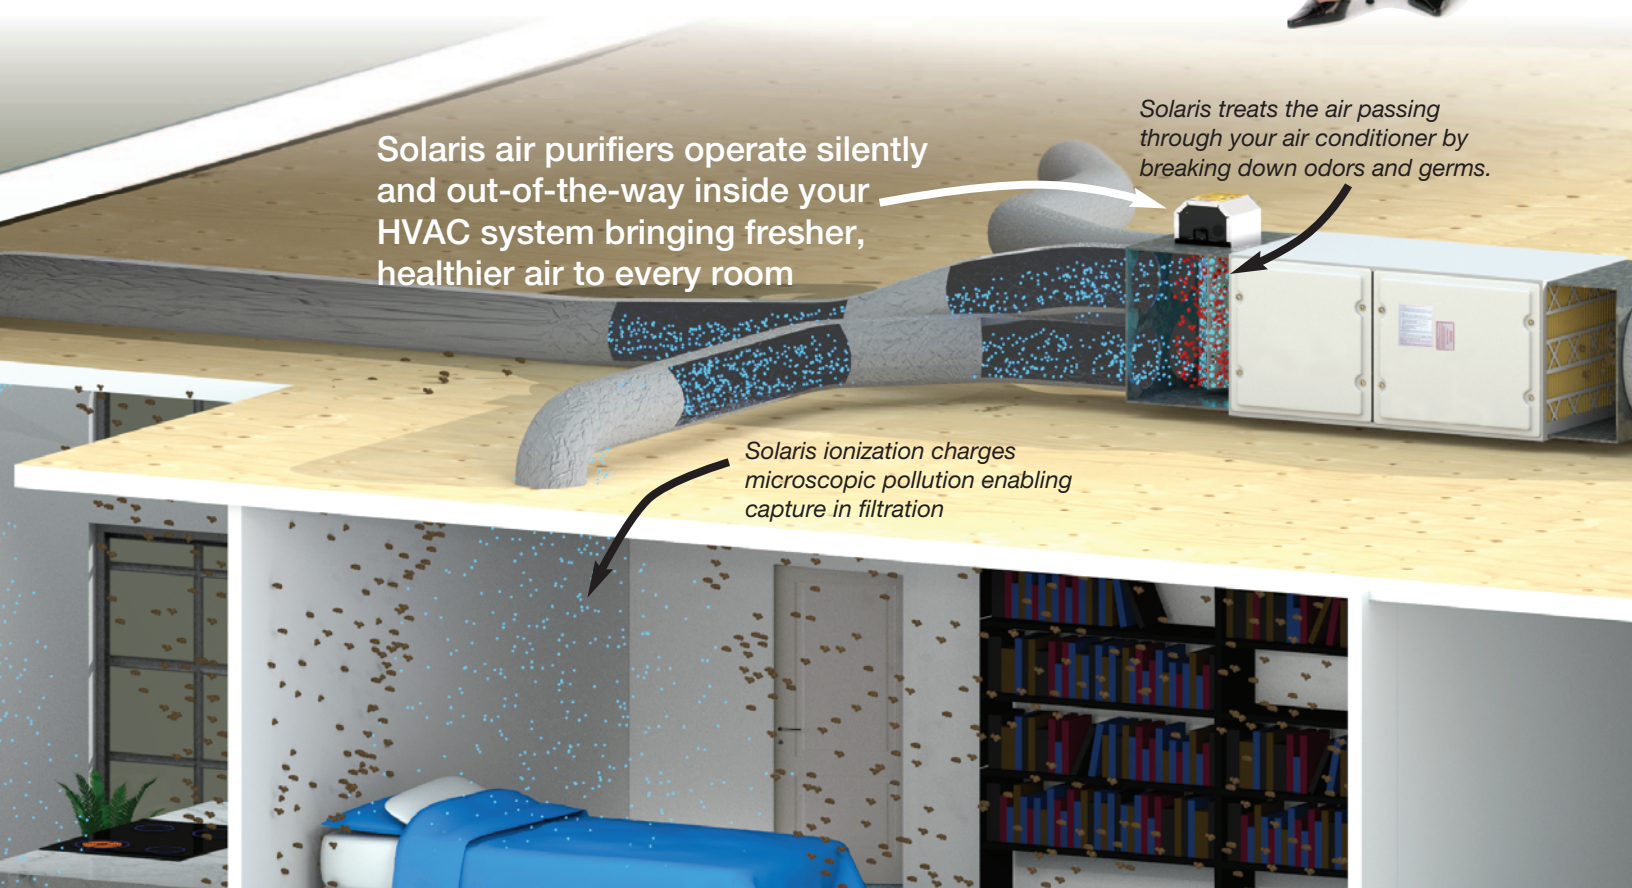

Ultravation is an American Manufacturer located in Brandon, Vermont

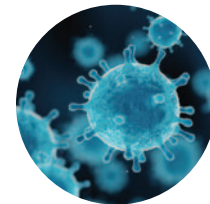

Solaris goes beyond filtration to create cleaner, fresher and healthier air

Air contamination comes in many forms, and from many sources. Solaris Air Purifiers combine proven air contamination removal technologies to do the job, and comes in one, convenient and efficient whole house air purification system.

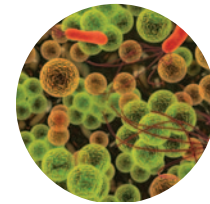

- **Kills bacteria and viruses** circulating in the air and on surfaces—including countertops
- **Breaks down household odors** from kitchens to laundry rooms—even bathroom and swimming pool odors
- **Microscopic pollution is gathered into large and filterable groups!** Offers unprecedented removal of minute airborne irritants
- **Freshens the air** in the same way a thunderstorm clears the air of contamination
- **Whole house effective!** A Solaris® air purifier is professionally installed in HVAC air ducts so fresher healthier air is distributed to all air conditioned spaces.

SLX-1024

Bring cleaner air to your life™

Lifetime Warranty

With 1-year UV Lamp Warranty (see owner's manual for complete details)

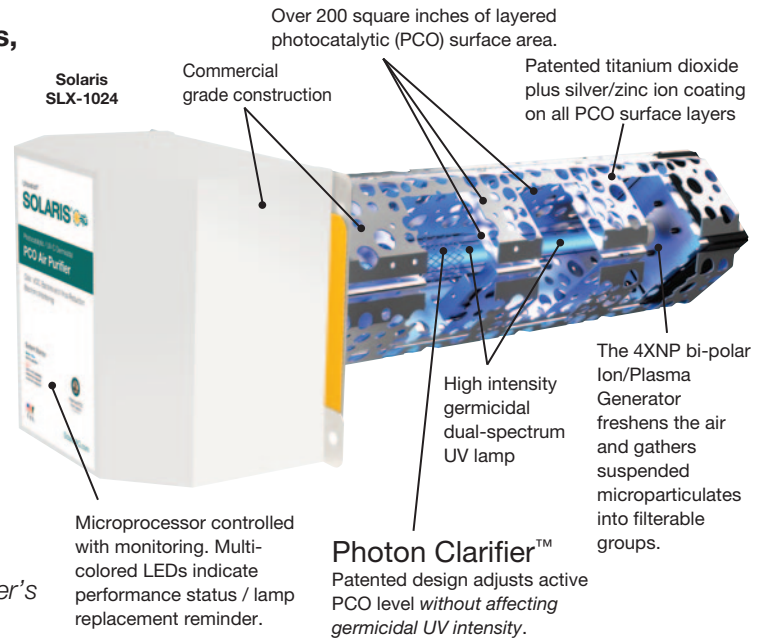

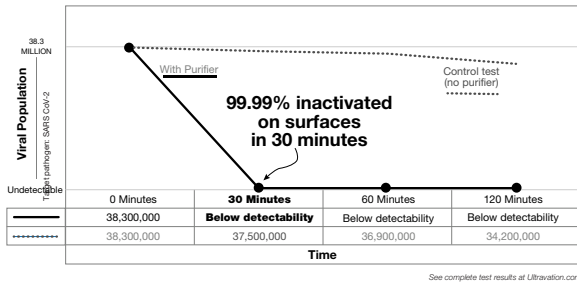

Solaris multi-technology PCO air purifiers bring commercial grade purification performance to your home!

Solaris® goes beyond filtration to eradicate germs, allergens, odors, and VOC/chemical pollution!

Solaris Air Purifier Independent Testing

Pathogen Reduction

Recommended Upgrades:

Solaris 6P Remote UV Lamp Powered by the purifier's auxiliary port, the lamp installs near the HVAC cooling coil.

- Keeps coil clean and clear of bio-growth. Reduces HVAC-sourced allergens and bacteria, maintains coil efficiency (saving electricity), augments HVAC airstream disinfection.

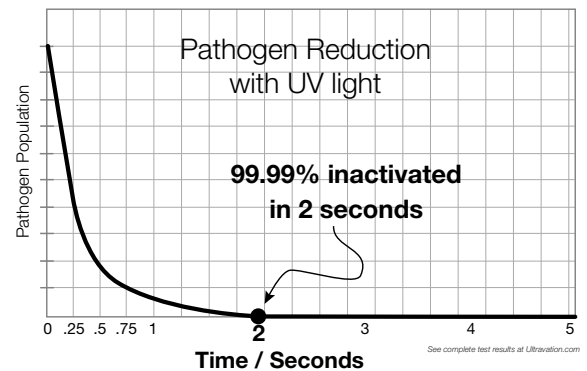

DRAINLight UV™ A small UV lamp powered by the purifier's auxiliary port, installs near the HVAC drain pan / drain lines to disinfect HVAC condensate.

- Keeps HVAC drain pan and drain lines clear of bio-growth and highly effective against Zoogloea — the slimy bacterial growth that causes drain line clogs and drain pan overflows.

Solaris® UV Lights Independent Testing

Applications:

- Homes
- Offices
- Schools
- Medical Facilities
- Industry
- Restaurants
- Pet centers
- Military
- Cruise ships
- Hotels
