Powered Germicidal UV Lamp

Better Air | Better Water | Better Living™
Ultravation.com

WARNING: Disconnect main power to the unit before servicing. NEVER LOOK AT AN ULTRAVIOLET LAMP WHILE IN OPERATION as severe eye / skin damage may occur. Lamps operating over two-years should be turned off.

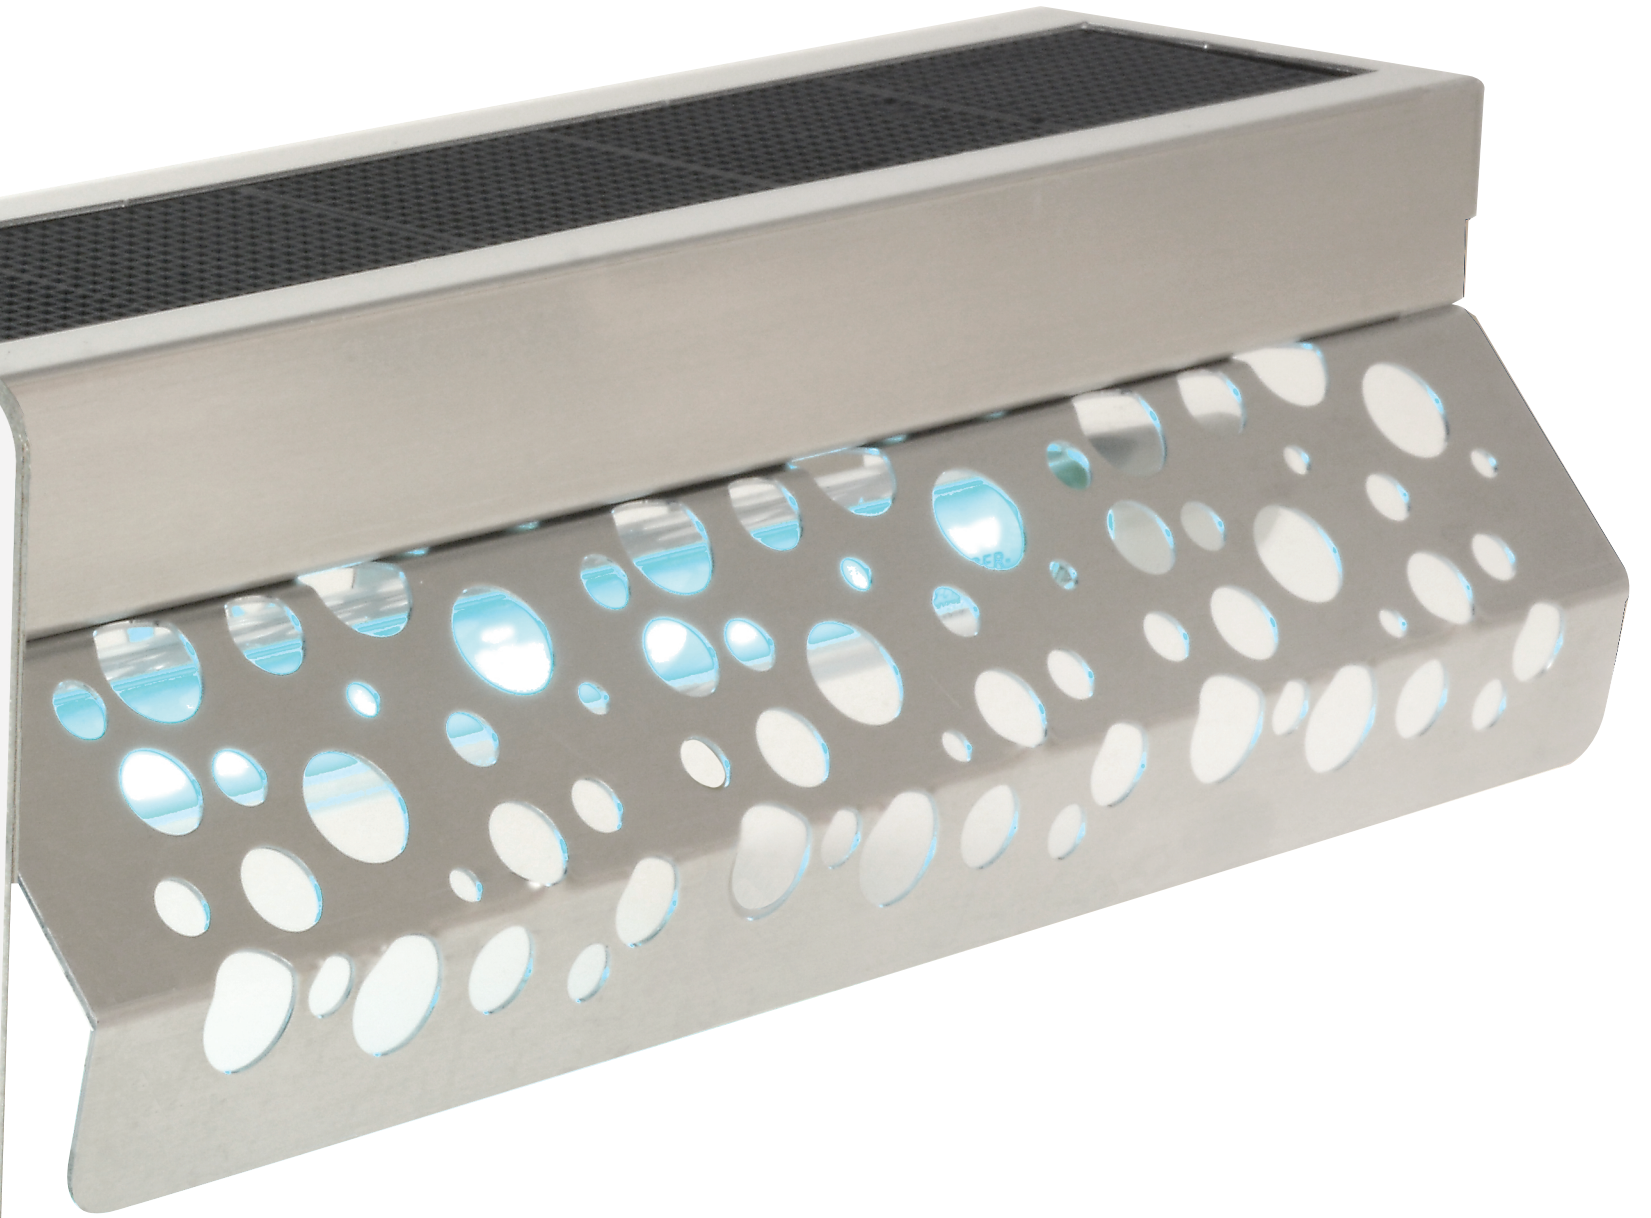

ATTENTION: All wiring inside the duct system in direct line-of-sight of the UV light must be shielded with aluminum foil or equivalent non-combustible material.

WARNING: No openings in the duct are allowed which would give direct line-of-sight to the UV light.

Bring cleaner air to your life!™
